

Ashton Court Mansion

Ashton Court Mansion – Event Audio Technical Specifications

Our venue is equipped with a versatile, multi-zone audio system designed to provide seamless background music and clear vocal amplification for your event.

Distributed Audio & Playback

We offer seamless **Bluetooth connectivity** to our integrated speaker system, allowing clients to easily stream music directly from their devices. This wireless audio playback is routed to dedicated speakers situated in the following event spaces:

- The Music Room
- The Winter Garden
- The Night Bar
- The Panelled Lounges
-

Microphone & PA System

For speeches, announcements, and presentations, the mansion features a professional-grade vocal amplification system routed through the house PA.

- **Hardware:** Integrated Sennheiser wireless receiver
- **Microphones:** 2 x Sennheiser Handheld Wireless Microphones
- **Coverage:** Routed through the internal PA system for clear, reliable audio distribution.
- **Important Note Regarding Live Entertainment:**
Please be aware that our in-house PA system is suitable strictly for background music and speeches. **DJs, live bands, and other musical acts must provide their own dedicated PA and amplification systems for their performances.**
